**DETAILED ACTION**

***Response to Amendment***

The response filed February 21, 2006 has been entered and considered.

Claims 1-27 are pending.

Claims 1, 5, 10, 11, 15, 20, 21, 23, and 27 have been amended.

An action on the merits of claims 1-27 follows.

***Drawings***

The drawings were received on February 21, 2006. These drawings are approved.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3625

Claims 1-3, 5-13, 15-21, and 23-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Gardner et al. (U.S. Patent No. 5,758,327).

Gardner et al. discloses a method for automatically generating purchase orders in a computer implemented procurement system (col. 1, lines 5-9). The method comprises, inter alia, the steps of accessing a user modifiable configuration file comprising a selected list of criteria on which line items are to be sorted into purchase orders. To that end, Gardner et al. discloses that each company identifies "business rules" which are stored. A number of sub-requisitions are formed from a list of line items as determined by a variety of criteria (col. 3, lines 9-17; col. 7, lines 12-23). Separate purchase orders are automatically generated (col. 4, lines 9-10; and col. 3, lines 8-9). It is noted that the requisition is represented via an electronic shopping cart (col. 7, lines 11-16). The criteria is selected from a group including at least supplier name since the generated purchase orders are directed to respective vendors (col. 3, lines 54-61). Approval and modifications are also disclosed (col. 8, lines 33-39).

Art Unit: 3625

***Allowable Subject Matter***

Claims 4, 14, and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments filed February 26, 2006 have been fully considered but they are not persuasive.

Applicant remarks that "Gardner fails to disclose [or teach] modifying a selected list of criteria based on user input".

The Examiner disagrees. As discussed above, criteria are established as per business rules. A user must input such list (or modify such list) in order to maintain adherence to business rules. In this way, the claims, as amended, still "read-on" Gardner.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS

Art Unit: 3625

of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
